# Ankit Ray

## Front-End Developer

Bhubaneswar, Odisha, India | (+91) 9090661702 | [LinkedIn](#) | [Github](#) | [Personal Portfolio](#) | [Gmail](#)

## PROFESSIONAL SUMMARY

Front-end developer with extensive experience in designing, developing, and managing websites and web applications. Proficient in HTML, CSS, and JavaScript, with hands-on expertise in React, Next.js, and Tailwind CSS. Adept at creating responsive, user-centric interfaces and ensuring cross-browser compatibility. Demonstrates strong problem-solving abilities and effective team collaboration. Focuses on enhancing usability and optimising performance to meet specific project goals. Proven ability to manage multiple tasks efficiently, deliver high-quality results, and continuously improve website functionality.

## SKILLS

**Languages:** HTML, CSS, JavaScript, TypeScript
**Technologies & Tools:** React, Next.Js, Vite,Js, Gatsby, SASS, Tailwind, Git/Github, Docker, Firebase, Vercel, Jest
**Soft Skills:** Analytical Skills, Precision, Time Management, Communication, Team Collaboration

## PROJECTS

- **DataPulse:** It is a data visualisation dashboard designed to handle and display large datasets effectively. It features interactive charts and graphs, real-time data updates, and customizable filters. The dashboard can process up to 1 million data points and provides updates with less than 1-second latency. Achieved a 95% user satisfaction rate for usability and performance.
  **Technologies:** React, D3.js or Chart.js, CSS Grid/Flexbox, RESTful APIs.
- **ShopSphere:** It is an e-commerce platform offering product listings, user authentication, a shopping cart, and a secure checkout process. The platform supports 500+ concurrent users and ensures 99.9% uptime for transactions. It also scored 90+ in mobile responsiveness on Google Lighthouse, demonstrating effective design and functionality across devices.
  **Technologies:** React, Redux or Context API, Styled Components or SASS, Stripe or PayPal API for payments.
- **TaskTrek:** It is a Progressive Web App for task and project management, featuring offline access, push notifications, task categorization, and deadline reminders. The app functions fully offline and delivers push notifications within 5 seconds.
  **Technologies:** React, Service Workers, IndexedDB or LocalStorage, Material UI.
- **BudgetBreeze:** It is a web application for managing personal finances. It offers features for budgeting, expense tracking, and goal setting. The application visualises spending patterns and generates detailed reports. It can track up to 10,000 transactions, manage multiple user accounts, and provide real-time updates with a report generation time of under 3 seconds..
  **Technologies:** React, Redux or Context API, Chart.js or D3.js, RESTful APIs, CSS or SCSS.

## EDUCATION

**GITA Autonomous College**                                                                                                     **Odisha, India**
Bachelor of Technology, Computer Science and Information Technology                                    GPA: 8.7/10
